TRUTH-IN-SAVINGS DISCLOSURES

Additional Disclosures Concerning Specific Consumer Accounts

To be a member and maintain accounts at the Credit Union, you must purchase one share in the Credit Union in a Prime Savings Account. The par value of a share in this Credit Union is \$5.00 (minimum balance) and must be maintained in the Prime Savings Account.

Disclosures Concerning Dividends. Unless stated otherwise in this disclosure or our [Member Service Agreement](#) or provided for in a separate agreement, the following terms apply to all dividend-bearing accounts.

Declaration of Prospective Dividends: Dividends are paid from current income and available earnings of the Credit Union after required transfers to reserves at the end of the dividend period. The dividend rate and Annual Percentage Yield (APY) reflect the earnings the Credit Union anticipates having available for distribution. *Rate:* The dividend rate on all dividend bearing accounts is a variable rate. The dividend rate and the APY are disclosed monthly on the Credit Union's website. The dividend rate and APY may change every month as determined by the Credit Union's Board of Directors in its sole discretion.

Balance Computation Method: Dividends are calculated by the average daily balance method which applies a periodic rate to the average daily balance in the account for the month. The average daily balance is calculated by adding the principal in the account for each day of the month and dividing that figure by the number of days in the month.

Compounding and Crediting: Dividends are computed from the date of deposit to the date of withdrawal and are credited and compounded monthly. For example, the beginning date of the first dividend period of the calendar year is January 1 and the ending date of such dividend period is January 31. All other dividend periods follow this same pattern of dates. The dividend declaration date follows the ending date of a dividend period, and for the example above, is February 1. If you close your account before dividends are credited, you will not receive the accrued dividends. There will be no dividends credited after you have caused a monetary loss to the Credit Union as described in the [Member Service Agreement](#) under Denial of Services, Expulsion, and Termination. If any dividend calculation produces an amount that is less than \$0.01, such amount will not be credited, will not be used for calculations for future dividend periods, and will not be paid.

Date Dividends Accrue: Dividends will begin to accrue on the business day that you make your deposit.

Fees and Charges: Other fees and charges may apply based on the product, service, or transaction. The amount of the fee may vary based on your Member Rewards level. For more information see the [Schedule of Fees](#) and [Membership Rewards Program](#).

Transaction Limitations: [Regulation D](#) transfer limitations described in the [Member Service Agreement](#) apply except as noted otherwise below. In addition, we reserve the right to require prior notice of your intention to make a withdrawal not less than 7 days and up to 60 days before the withdrawal.

If the funds withdrawn bring the balance below the required minimum, the certificate must be redeemed and 180 days* of dividends will

be forfeited. If the amount withdrawn has been in the account less than 180 days,* all dividends on the amount withdrawn will be forfeited, and if the term of the certificate is under 180 days,* the penalty is no dividends. Penalties shall not be applied if the withdrawal is made: (1) subsequent to the death of any owner of the certificate account; or (2) as a result of the voluntary or involuntary liquidation of the Credit Union; or (3) pursuant to a mandatory (automated) withdrawal of an Individual Retirement Account (IRA) required minimum distribution (RMD). There are no penalties for withdrawing dividends paid on the account. Upon renewal only the dividends earned after the renewal date are available for withdrawal without penalty.

Renewal Policies: Upon maturity, your certificate account will automatically renew for the term disclosed at the certificate opening unless instructed otherwise. A renewal notice will be provided by the Credit Union at least 10 days prior to maturity. You will have a grace period of at least 10 calendar days after the maturity date to withdraw the funds in the account without being charged an early withdrawal penalty. If you withdraw the funds, no dividends will be paid for the grace period.
